

TheBLACKMedia, LLC loves the press! To help you make your process easier, which often includes logos and photos, we added that to this press kit. You may use these files to properly size your projects without hassle.

For help or if you need more email Tahir@TheBLACKMedia.org

YOU MAY DO THIS:

- + Place the files on articles, inside videos, and promotional flyers that must all be approved.
- + Open the PSD files and make slight changes in size to fit your project scheme.

YOU MAY NOT DO THIS:

- + Use any art work or photos without permission and approval
- + Use the PSD files to recreate our logos or text for your advantage
- + Share these files with anyone other than those authorized
- + Retouch images, filter them, or change them in anyway without approval.

Thanks so much! TheBLACKMedia, LLC and TheBLACKMedia.org is ready to help!
